SmartEPGvu⁺

Welcome to the **SmartEPGvu⁺** Wiki

This is the European English Wiki.

Please click [HERE](#) to access the Australian version of the Wiki.

SmartEPGvu⁺ (SEvu⁺) is an EPG-Plugin for Vu+ Receivers.

This knowledge database for the plugin **SmartEPGvu⁺ (SEvu⁺)** is intended to assist users of the plugin. It contains a collection of support and other information that will be expanded over time to reflect user experience and new and improved features of the plugin. For example, it is intended to deal with recurring questions asked by users and to make it easier to get acquainted with the options offered by the plugin.

Articles can be found either by using the search function or by directly selecting the chapters listed in the [sidebar](#).

If you are interested in participating and editing of this Wiki, you need to register first. New users, please send an email to [Ricki](#). Your eaaamail should state which username you would like to use, and briefly explain what areas you plan to contribute to.

This wiki uses DokuWiki, which is relatively simple and intuitive to use. Further information for the wiki authors can be found here [DokuWiki Manual](#).

The wiki is NOT intended for error or problem discussion.

For issues and questions about *SmartEPGvu⁺* either visit [TTD Forum Vu+ Corner](#) or [The Vu+ forum](#) which are good places to start with.
