# Timer Editor

These settings are structured identically in the [Guide View](#), [Overview view](#), [Grid view](#) and [Next event view](#).

## Explanation of the keys

	Save created timer
	On/Off. The start and end time of a recording is adjusted to the EPG data. In the Vti Timer Menu setting, "Automatically adapt recording time to EPG data" must be activated
	On/Off. For the VPS on option, the VPS plugin must be activated
	Edit highlighted timer
	Exit

**Depending on the input field, the following keys appear in the editor**

	Switch back one station with the left control pad button
	Use the right control pad button to switch to a station
	Depending on the input option, switch back 10 channels or 15 minutes
	Depending on the input option, switch 10 stations forward or 15 minutes back
	Depending on the input option, switch back 10 channels or 1 minute
	Depending on the input option, switch back 10 stations or forward 1 minute
	Edit entry or change mode in the next field, i.e. Power off, Automatic, Standby or none
	Take over the name of the program from the first input field in the recording path, then the recording will be saved in this path

## Editor Explanation

The following screenshots show the various keys of the respective fields, depending on where you are.

The blue framed text shows which setting is explained below the screenshot.

The VPS and EPG function is explained [HERE](#) in detail.

## Show Name

The framed field shows the title of the program to be recorded. This can be edited with .

## Channel Selection

## File Name

Use the left and right keys to select which suffix should be added to the recording name.  
The options are:

- vu+ standard
- Name
- Name + Description
- Name + Timestamp
- Name + Description or Time
- Name + Description + Time
- Name + Time + Description

The screenshot shows the SmartEPGvu+ interface. At the top, it says 'Timer list' and '1/18'. Below this is a list of timers with columns for date, time, and duration. A configuration menu is open over the list, showing settings for 'SOKO Stuttgart'. The menu includes fields for 'Date: Thu 03.02.2022', 'Mode: Record', 'Start time: 18:00', 'End time: 19:00 (60 min)', 'Prepad: 5 min', 'Postpad: 30 min', 'After event: Auto', 'Repeat: off', 'Record path: /media/hdd/movie/', 'Search: SOKO', 'Delete after 0 hours', 'Delete on low space: No', and 'File name: VTi settings'. At the bottom of the interface, there are buttons for 'Save Timer', 'Auto EPG adjust on', 'VPS mode', 'change recmode', and 'Exit'. The 'SmartEPGvu+' logo is in the bottom right corner.

If you have not selected „vu+ default values“ in a search or in the global settings, the recording will be renamed after the end of the recording. If a recording with the same name already exists, the newer one is given the suffix „-2“, „-3“, etc.
