File Database Editor

This view can be invoked from the [Guide](#), [Overview](#), [Next event](#), [Timer](#) or [Search](#).

It shows all recordings that were triggered by each of the searches, or that have the same name as the selected timer. Here, for example, episodes of a series can be recorded that would otherwise not be recorded.

By repeatedly clicking on the  button, the filter used is switched and different filter views are displayed.

When the  button is pressed, the recording's coloured icon changes to unblocked or blocked or vice versa.

The explanation of the colours can be looked up under [File Database Symbols](#).

For example, the following image shows recording 584/584 of all recordings (no filter) in the file database with different symbols.

File DB List: (no filter)					584/584
 22.01.22	heute Xpress		10:23 - 10:25		1'
 22.01.22	RTL Aktuell		18:45 - 19:18		33'
 23.01.22	RTL Aktuell		18:45 - 19:18		32'
 24.01.22	RTL Aktuell		18:45 - 19:18		32'
 24.01.22	Morden im Norden (115) ~ Goldener Schuss		18:45 - 20:00		74'
 25.01.22	Wer weiß denn sowas? (797) ~ Gäste: Moritz Bleibtreu und Tom Schilling		11:42 - 11:42		0'
 25.01.22	RTL Aktuell		18:45 - 19:18		32'
 25.01.22	WaPo Duisburg (3) ~ In der Falle		18:50 - 19:42		51'
 25.01.22	In aller Freundschaft (959) ~ Wahrheit ... oder nicht?		20:55 - 22:15		79'
