Magical Mystery oder: Die Rückkehr des Karl Schmidt  
Spielfilm Deutschland 2017  
Mo 1.02 01:20 - 03:08 108 min  
Unter dem verheißungsvollen Namen "Magical Mystery" will das Berliner Techno-Label BummBumm Records auf Rave-Tournee gehen. Karl Schmidt alias Charly war einmal selbst ein aufstrebender Künstler der Szene, bis er sich nach einem Nervenzusammenbruch vor fünf Jahren zurückzog. Seither lebt er in einer betreuten Entzugs-WG in Hamburg. Nun wird er als Fahrer und Aufpasser für die feierfreudigen DJs und ihre Produzenten ein Teil von "Magical Mystery" und versucht so, nach Jahren voller Bevormundung und

## Timer Types

Below is an explanation of the various timer types  that appear in the views. They are selected by pressing the *Pause* key several times.

**R:** These timers record the programmed program.

**P:** These timers do not record the programmed program, but switch to the relevant channel at the start time.

**M:** These timers do not trigger a recording, but only mark a program. M-timers are reminder timers, that remind you of the start of the program with a pop-up window. You will be asked if you want to switch.

## Timer Colours

This view shows the different picons and the different timer symbols, it also picons and timer symbols for the *SmartEPGvu<sup>+</sup>* scan timer and for the *image backup* task.

Timers that have not yet been confirmed \*  
Timers running tomorrow  
Timers that will run later  
Timers that do not trigger an action (e.g. blocked timers)

\* If the timer is not confirmed, the program will still be recorded. The timer colour then remains dark green.

If the timer is confirmed with  , the colour adopts to the time of the planned recording.

## Timer additional information

Timers have the repeat icon if (i) a previous timer points to the same program, **or** (ii) the FileDB lists the same program as having been previously successfully recorded

The search blocks timers if the associated program is listed in the FileDB as already recorded.

If a series timer results in a successful recording, all future timers are blocked.
